CA EXAM STRATEGIES

**A few pointers to be kept in mind:**

- Study everyday in **shifts of 3.5 hours each**. It is highly recommended to have **at least 4 such shifts** in a day.
  - **Revision Round 1** is all about **strengthening everything** you have read till now into your memory.
  - **Revision Round 2** is all about **building confidence**. So it is best to cover 100% in limited time.
  - **Revision Round 3** is all about **becoming exam ready**. So crease out all the weak areas, glance over all the forgotten theory portions and practice all the tough questions again.
  - **Quality of studies is more important than the time for which you study**. So the focus has to be on utilizing each and every second productively and effectively.
  - **Make it a point to sit for Mock Tests and solving Past Papers in exam conditions**. This will only help you to be in the flow for the exams.
